

# STAY IN THE ZONE

*Quickly adjust focus as you change working distance or to accommodate patient movement*

## Multifocal Objective Lens

- Set up faster with less repositioning
- Maintain ergonomic posture
- Fine-focus without moving microscope body or binoculars
- Retrofittable to any Global Microscope

**6" TOTAL FOCAL ADJUSTMENT**

**We make it easier!**

**GLOBAL**  
SURGICAL™ CORPORATION

# ANY PATIENT. ANY POSITION. ONE LENS!

The multifocal lens helps you focus the microscope more efficiently by limiting the need to reposition and allows you to maintain your working posture.
